ABOUT ME

I am a humble, energetic, focused, compassionate, and dedicated young male who loves agriculture and willing to put my acquired skills into practice.

I have for long worked with cows, goats and sheep at our family farm which motivates me to be a community based exemplary farmer given my passion to teach people how to look after animals. I thought it wise to pursue my vision of becoming a farmer with my main interest in livestock farming. I feel confident that am not only doing the right thing, but also something that my heart loves. Therefore, am flexible to any readily available placement in Dairy farming which I believe will be a valuable additional experience and exposure.
