

# ALOYSIUS J.M

Date of birth: 18/06/1997 | Nationality: Ugandan | Gender: Male |

Address: 256, Uganda (Home)

## ABOUT ME

My name is Aloysius J.M 168cm tall with weight of 62kg. Farming and agriculture have been a part of my life for as long as I can remember. Growing up, I spent many hours working on our family farm as well as going to different farms and learning about the various techniques and practices involved in agriculture. Over the years, this passion has only grown, and I am now grateful to have had the opportunity to pursue it not only as a hobby but also as my fulltime employment. Whether it's planting crops, tending to animals (pigs and cattle), or simply observing the natural processes at work, I find it both rewarding and educational. I would like to expand my knowledge and understanding and believe that a Danish host farm will help me accomplish that during my internship period.

## WORK EXPERIENCE

2015 – CURRENT Uganda
