ABOUT ME

My name is Andrew S. C aged 26years with height of 176cm and weight 81 kgs. I was born and raised by a simple family and our major source of income at home is farming. We literally sell farm produce such as meat, milk, soya bean, beans and maize all got from the family farm. We have a number of pigs and dairy cows for both milk and meat production which generates a good return of income based on the readily available market around the city and local restaurants and homes. Due to the lack of modernized machines and tools, we just sell fresh milk since we can not preserve it longer but even when it remains, it can be turned into skimmed milk. Growing up, I noticed that I could do a lot if I gained more knowledge and exposure about piggery and dairy farming hence my interest in pursuing an internship in Denmark.
