

DAVID S

Date of birth: 24/06/1995 | **Nationality:** Ugandan | **Gender:** Male |

Address: 256, Uganda (Home)

ABOUT ME

My name is David S aged 27 a Ugandan by nationality, 180cm tall and I weigh 75kgs. My passion for agriculture and animal husbandry developed when I was young as I used to watch my parents take care of the farm animals and plants. I got more passionate about working with different animals and I am able to do activities like feeding the animals, cleaning their stables, mixing their feeds, vaccinating them with supervision from veterinary doctors, plus doing hand milking. Our family farm is sitting on 25 acres of land and comprises of 100 heads of cattle, 90 pigs, 210 poultry birds and we also grow some crops that we mostly use for home consumption as animal feeds. I am a strong and hardworking youth, able to work under minimal supervision, self motivated and respectful to the working rules and guidelines.
