ABOUT ME

My name is Patricia aged 27years old with weight of 69kg and a height of 167cm. I have grown up working on family-owned and operated farm, this has taught me that quality and care of the animals and crops is as important as the quantity and quality we produce to ensure customers get the best produce. My main area of interest is the piggery and poultry section as I closely work with pigs and poultry birds at our family farm. I look forward to an opportunity to have my internship on a farm in Denmark as this will equip me with improved modernized farming skills and techniques which I hope to employ on our family farm after my internship period.
