ABOUT ME

I am a Ugandan by nationality weighing 56kg and stand at 158cm. My family is made up of 7 children, 3 girls and 4 boys and we all grew up on a small scale family mixed farm. I developed a passion for agriculture from my grandparents as I used to watch them do several farm activities, and so I decided to pursue agriculture for my education up to University level. I have had an opportunity to work on our farm since the early years of my childhood. I believe I have great experience in the field and am able to handle various activities on the farm. I am a hardworking, resilient, flexible, reliable, enthusiastic, good at multi tasking, result oriented and able to work under minimal supervision.
